- [SIFT: An approach for evaluating web content](#)
Video from Wayne State University Libraries

Suggested Databases

- [Bates' visual guide to physical examination](#)
Online, interactive clinical skills training for students in the health sciences including, nursing, occupational therapy, physician assistant, and exercise science. Contains videos featuring step-by-step, head-to-toe, and systems-based physical examination techniques, as well as interactive clinical reasoning modules and interpersonal skills videos.
[more...](#)
- [CINAHL with Full Text](#)
Literature on nursing, alternative/complementary medicine, consumer health and 17 allied health disciplines. Content includes full text access to more than 600 journals and citations for journal articles, book chapters, dissertations and selected conference proceedings.
- [ProQuest Nursing & Allied Health Database](#)
Covers literature on nursing and allied topics. Includes scholarly journals, trade journals, magazines, dissertations, books and reports
- [PubMed](#)
PubMed is a database created by the National Library of Medicine to facilitate searching the biomedical literature. The MEDLINE databases found within PubMed contain journals that have been reviewed by a panel of experts for quality. PubMed also contains PMC (PubMed Central), which contains publicly accessible literature that has not necessarily gone through the same review process. [Alternate Link \(SSO\)](#)
- [Cochrane Library](#)
The Cochrane Library consists of a collection of regularly updated evidence-based health care databases. The collection is designed to provide information and evidence to support health care decision-making. It includes the Cochrane database of systematic reviews, and databases of clinical trials, and non-Cochrane systematic reviews.
